A typical bathroom must be fully equipped with items ranging from facial tissues to clean unused towels, from hand lotion to fresh roll of toilet paper. If you receive a lot of guests, make sure to place a large number of clean hand towels. A non-skid mat is another important addition to a bathroom. You can place it in the shower area or around the tub. The towel bar must always have one or more clean and unused towels. The moment a towel is used, make sure to replace it immediately.

Watercolor guest towels with floral designs are perfect addition to any bathroom. You can even choose three-ply towels that offer more soaking capacity.

Towel napkins are available in a wide range of designs and themes. You can keep changing the themes to impress your guests. Choose the colors of the season to make your bathroom a special place for everyone. The best thing about guest towels is that they can be placed in the bathroom or even as buffet napkins whenever you have guests.

Keep a few sets of paper guest towels in spare. You could never tell when your guests may show up. You can place them in the bathroom especially when it is the festive season.

Other items that can be placed in your bathroom include a few unused toothbrushes and a few feminine hygiene products. Many times, your guests don't come up with their toothbrushes and you will want to make their stay as pleasant as possible. As wastebasket is another must-have, you can do better by placing another one in the other corner.

One of the advantages of keeping your bathroom well maintained and stacked with all the essentials is that you don't have to worry when you have a party.
